

## INSPIRED IN·LAW

Introducing the Inspired In-Law™ Cottage:  
Sustainable. Attainable. Affordable.

# Green Solutions for Multi-Generational Living

 **Sustainability & Energy Efficiency** The Inspired In-Law™ Cottage is designed by Larson Shores Architects, a green building professionals. Our thoughtful design solutions are architecturally inspired in the newest, sustainable in-law cottage. This free-standing, one-bedroom home is:

- A healthy choice for occupants and the environment.
- A zero sprawl backyard unit using existing city infrastructure to preserve open space.
- Designed to enable multiple generations to live together comfortably.
- Uses green materials with pre- and post-consumer products such as recycled wall tiles, ceramic, paint, and decking.
- Designed to minimize energy cost with natural daylighting, high efficiency windows, appliances and insulation.
- The plans are pre-designed and available on [houseplans.com](http://houseplans.com) to expedite the process and simplify the decision making process.

### *Sustainable Living Design Principles*

**REDUCED CARBON FOOTPRINT** Daylighting delivers beautiful warm light by using 85% less energy than comparable incandescents. Passive cooling reduces the need for air conditioning.

**ZERO SPRAWL** Building within established communities means less dependence on transportation. Using your existing infrastructure to preserve neighborhood green space. Lower per-capita use of energy, land, and water.

**HEALTHY LIVING** Provides a safe environment and healthy indoor air quality by using formaldehyde, phenol, and isocyanate-free cork flooring; windows that resist rot, decay and fungal growth; and natural raw ingredients that are low in toxicity.

## INSPIRED IN·LAW

You have many questions about housing your loved one. The Inspired In-Law Cottage provides all the answers. Fast.

# Architectural Solutions for the Aging Population

**Value | Senior Care vs. Inspired In-Law** According to a 2011 MetLife market survey, the cost of a private room in a nursing home rose to \$87,235 per year (\$239/day). We've created sustainable, cost-effective architectural solutions to keep people in their homes, letting them "age in place" to maintain their independent lifestyles as long as possible.

Our Inspired In-Law™ Cottage answers all of your family's questions about senior care, such as "Will my aging parents or loved ones have a safe comfortable living space?" And "will the purchaser of the unit be able to plan and manage costs."

**Fast & Easy | Pre-Designed Options** We have created four back yard cottages, simply choose the plan that works best for your family and your backyard. Each plan comes with a variety of rooflines so that you can find a style that compliments the main home. Worried about the unit matching? The exterior siding can be selected on site so that it matches. All of our units are designed to support independence and accessibility in a beautiful space.

### *Age in Place Features*

**ACCESSIBILITY** We've created a beautiful, fully handicap-accessible living space for maintaining senior independence.

### *Multi-Generational Living*

**FAMILY CONNECTION** With the Inspired In-Law™ Cottage adjacent to your family's home, you'll provide physically and emotionally support to your loved one aging at home.

**SENIOR INDEPENDENCE** Seniors want to maintain their privacy. This home creates separate entries and living spaces to allow multiple generations to live on the same property, but be close to their family.
